Re: **Filing of Current Report Under Section 17 of the Securities Regulation Code  
amid COVID-19 Pandemic**

Gentlemen:

Further to the requirement of the Securities and Exchange Commission to make a disclosure to the investing public of the risks and impact of the COVID-19 on the business operations of publicly-listed companies (PLCs) that will materially affect the decision of investors to buy or sell or hold the securities of the PLCs, we disclose as follows:

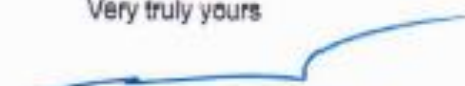

The Company anticipates that there will be a lower demand for our food and beverage products from on-premise consumption such as restaurant, bars, hotels and similar establishments due to the directives to minimize public gatherings and tourism-related activities. However, we expect that there will be a corresponding increase in in-house consumption of our food and beverage products.

There is also a likelihood for a lower demand for fuel due to the decrease in the use of private and public transportation. Such decrease will likely occur for all kinds fuel such as gasoline, diesel and aviation fuel. The decrease in the number of travelers will likely also impact the volume of vehicles making use of our toll roads.

The Company does not expect that the present situation will cause delays in the delivery of the supply of raw materials for use in our products. Neither do we expect delays in the progress of the construction of our infrastructure projects, unless there is a restriction in the free movement of workers and the delivery of supplies and raw materials.

We do not foresee any adverse impact on the operations of our power business. Although there is a possibility of lower demand for electricity arising from the possible closure of schools, offices, malls and other establishments, the portfolio of customers of the power business consists mostly of distribution utilities and electric cooperatives, which represent mostly residential and small-scale industrial demand.

Very truly yours

  
**FERDINAND K. CONSTANTINO**  
Corporate Information Officer
